CLEANING / SANITISING PRODUCTS

In addition to normal cleaning and scouring products, the following are now also used in our deep-cleaning procedures.

FOR GUESTS

HAND SANITISER

Dainty & Heaps 80% Hospital-grade Alcohol Hand Sanitiser is used to eliminate commonly occurring bacteria and viruses that are known to be highly transmissible and can result in infections and illnesses. This Alcohol based hand sanitiser comes in a liquid form that rapidly evaporates and moisturises leaving the skin feeling clean, soft and smooth. The formulation follows the World Health Organisation Formula 1.

The microbicidal activity of the WHO-recommended formulation 1 was tested by WHO reference laboratories according to EN standards (EN 1500). Their activity was found to be equivalent to the reference substance (Isopropanol 60% v/v) for hygienic hand antisepsis.

ANTI-BACTERIAL HAND SOAP

Carex Moisture Plus antibacterial hand wash works in seconds to gently clean, care and protect. It effectively removes dirt and kills 99.9% of bacteria.

WIPES IN TOILETS

Cernata ISO5 Cleanroom Wipes. Used in Operating Theatres.

OUR CLEANING PRODUCTS
